COURSE DESCRIPTION

Course Title:	DOE Conduct of Operations Overview
Course Length:	Four hours
Course Limit:	30 students
Intended Audience:	DOE and contractor non-operational facility management and technical personnel who contribute to operational aspects of a facility/activity.
Course Description:	This interactive course introduces the student to the concepts of a formal operating environment as enveloped by DOE Order 5480.19, "Conduct of Operations Requirements for DOE Facilities" and the DOE Standards titled "Guides to Good Practices for Conduct of Operations." The students will analyze and discuss several video and written case studies from several industries. The instructor will facilitate these discussions to help the class derive relevant answers as well as show practical application to their work environment. Each of the eighteen chapters to DOE Order 5480.19 will be addressed, along with the Principles of Operations.
Supporting Material:	None
Evaluation:	Subjective, based upon student's active participation
Prerequisites:	None
